

Facility Name: _____ **EIQ No.:** _____

SECTION 4 - PROPOSALS (LIMITS & ALTERNATIVES)

This section of forms, Section 4 - PROPOSALS (OPERATIONAL LIMITS & ALTERNATIVES), is an **OPTIONAL** section. This section is to be used if you would like to adopt any additional operational limits to reduce emissions. Any proposals for establishing or modifying operational limits on emissions may NOT be a relaxation of any requirement in an existing permit, judicial consent decree, administrative order, or rule. A relaxation in an existing construction permit must be made through the construction permit modification process.

For Hazardous Air Pollutant Early Reduction Applications, procedures for filing for a compliance extension must be followed and submitted with this application and comply with the requirements of 40 CFR 63, Subpart D (567 IAC 22.105(3)).

For Reasonably Anticipated Operating Scenarios the source shall, in this section, propose terms and conditions to be included in the permit. The source must include in its application a statement that it will, contemporaneously with making a change from one operating scenario to another, record in a log at the facility a record of the scenario under which the facility is operating. The source must also, in the application, propose terms and conditions of each alternative scenario that meet all applicable requirements including the department rules (567 IAC chapters 20 - 34).

- 1) ☐ YES, this application contains a proposal to establish operational limits to restrict emissions. Read Form **PR-01 PROPOSED LIMITS** and submit all necessary supplemental information in support of the proposal.
- ☐ NO, this application does not contain a proposal to establish operational limits to restrict emissions.
- 2) ☐ YES, this application contains a proposal to establish alternative operating scenarios. Read Form **PR-02 ALTERNATIVE OPERATING SCENARIO** and submit all necessary supplemental information in support of the proposal.
- ☐ NO, this application does not contain a proposal to establish alternative operating scenarios.
- 3) ☐ YES, this application contains a proposal for early reduction of hazardous air pollutants. Read Form **PR-03 EARLY REDUCTION** and submit all necessary supplemental information in support of the proposal.
- ☐ NO, this application does not contain a proposal for early reduction of hazardous air pollutants.
